

Semiahmoo Trail Mosaic

Glen Andersen

2011

15200 block 16th Avenue sidewalk

The Semiahmoo Trail Mosaics were designed to reference the historic Semiahmoo Trail which passes nearby. The art work includes 13 distinct, pebble mosaic tablets illustrating a range of fauna and edible medicinal flora. Footprints, figurative illustrations of animals and details of vines, shrubs, trees and insects are portrayed on the "walkway." The mosaic tablets, inset between sections of exposed aggregate, form a decorative border to the 16th Avenue Semiahmoo Shopping Centre sidewalk

About the Artist

Glen Andersen has worked as a designer and project coordinator, sculptor, and fabricator of tile and pebble mosaics for public spaces since 1995. His work with other designers, community groups, schools, private clients, youth, contractors and civic officials has create private, public and community art projects in Metro Vancouver, Kelowna and north-west Washington State. His pebble mosaic work can also be found in large format and various series through Holland Park. Andersen's business is called Mosaic Planet.
